REPORT
on the work carried out in 2025 on the activities of the antimonopoly compliance system at JSC Boshtransloyiha

№	The tasks set	Mark of work completion
1	A roadmap for 2025 to reduce the risks of violating competition law requirements and prevent offenses in this area has been developed and approved.	Sent by letter dated December 23, 2024, No. 01/2077
2	With the internal antimonopoly support unit (responsible employee), in the process of developing draft regulatory legal acts or internal documents related to the activities of the organization, the introduction of the procedure is mandatory.	With both customers and contractors. During the development of design and survey work, consultations were held with the company's leading departments to ensure antitrust compliance in the development of draft regulatory legal acts and internal documents.
3	The purpose of the communication is to report on actions that lead or may lead to restriction of competition, as well as discrimination against the rights and legitimate interests of consumers in conditions of competition or natural monopolies.	There are no communications that lead or could lead to restrictions on competition. The company has an internet sidebar to organize communications in the interests of consumers in the face of competition or natural monopolies.
4	Prevention of violations of competition law requirements.	In accordance with Chapters 4 and 5 of the Law on Competition, a conversation was held with responsible employees and heads of departments regarding violations of competition law requirements.
5	Cases of violation of competition law were identified and measures were taken to regulate them.	Not identified.

6	Areas of activity of the organization in which violations of competition law requirements are possible, classification of risks, division into levels based on the principle.	No risks were identified. The concept of antitrust compliance was developed based on Article 9 of the Law "On Competition."
7	The developed regulatory legal acts and draft internal documents related to the organization's activities have been studied, and appropriate work has been carried out to bring them into compliance with the requirements of these legislative acts in the event that norms (circumstances) are identified in them that may lead to a violation of the requirements of competition law.	Projects are being reviewed in accordance with Article 8 of the Law "On Competition" and the Resolution of the Cabinet of Ministers of the Republic of Uzbekistan dated June 3, 2021, No. 346 "On Competition" and "On Measures to Further Improve the Formation and Application of Prices (Tariffs) for Goods, the Prices of Which Should Be Regulated by the State" No. 722 dated December 29, 2023.
8	Proposals developed in connection with changes in competition legislation concerning the introduction of corresponding changes to current internal departmental documents and their implementation in practice	In the work of the company, strictly adhere to the legislation on construction and amendments to competition legislation in accordance with the Law of the Republic of Uzbekistan dated September 4, 2024 No. ZRU-954 - National Database of Legislation, 05.09.2024, No. 03/24/954/0682)
9	In accordance with the requirements of competition law, the organization's employees must improve their knowledge and skills.	Continue studying the "Regulation on the Procedure for Assessing the Impact of Regulatory Legal Acts and Their Drafts on Competition and the Methodology for Determining Unfair Competition" No. 694 dated December 29, 2023. https://lex.uz/docs/6733619
10	In order to determine the level of awareness of the organization's employees about the requirements of competition law, tests are conducted on a regular basis.	Constantly
11	The organization's director, their deputies, and responsible media personnel discuss the activities of the antimonopoly compliance system, and make statements on social media.	Social media appearances are planned for 2026 and are included in the 2026 roadmap.
